

Data to be Used

For this project we need the following data :

-Zomato Kaggel

Brazil Restaurants data that contains list Locality, Restaurant name, Rating along with their latitude and longitude.

Data source : Zomato kaggel dataset : <https://www.kaggle.com/shrutimehta/zomato-restaurants-data/data?select=zomato.csv>

Description : This data set contains the required information. And we will use this data set to explore various locality of sao paulo city.

-Fousquare

Nearby places in each City of Brazil

Data source : Fousquare API : "https://developer.foursquare.com/"

Description : By using this api we will get all the venues in each neighborhood.
